

A photograph of a surgical team in an operating room. Three surgeons in blue scrubs, masks, and hairnets are focused on a procedure. The room is brightly lit by several overhead surgical lamps. The overall color palette is dominated by blues and whites, with a red surgical drape visible in the lower right.

TCM 3000 BL Morcellator: The robust and intuitive system with fine-tuned foot switch control for demanding surgeons

The compact TCM 3000 BL Morcellator control unit offers you precise and efficient tissue morcellation. With its intuitive control panel, you have full control over the continuous regulation of your instrument's rotational speed. The Morcellator allows speeds of up to 1,000 rpm to ensure precise cutting performance. You have the option to choose freely adjustable speeds in VARIO mode or use three pre-defined programs with specific speed ranges.

HIGHLIGHTS

- + Precise cutting performance for optimal results
 - + Pre-defined program buttons for quick access to different speeds
 - + Robust and high-quality technology for long-term reliability
 - + Intuitive operation with fine-tuned foot switch control

Accessories & Sets for Laparoscopic Hysterectomy

To meet the diverse requirements of different procedures, we offer a wide range of morcellators with various diameters. Our instruments are available in sizes 12 mm and 15 mm, ensuring a precise fit for each individual application. Through meticulous selection and coordination of instruments and accessories, we achieve excellent results in morcellation and ensure maximum safety during the surgical procedure. Trust in our proven products to successfully overcome your surgical challenges.

	Set REF
Basic Set consisting of	3287nou
TCM 3000 BL Morcellator Control Unit (REF 3281)	
Foot switch (REF 1507nou), Electronicmotor 21 (REF 2090nou)	
Spray Tube Attachment (REF 19584)	
+ Ø 12 mm Set consisting of	4144nou
Gear Unit (REF 5163nou), Handle (REF 5183nou)	
Cutting Tube Ø 12 mm (REF 5154nou), Protection sleeve Ø 12 mm (REF 5137nou), Obturator Ø 12 mm (REF 5151nou)	
+ Ø 15 mm Set consisting of	4145nou
Gear Unit (REF 5163nou), Handle (REF 5183nou)	
Cutting Tube Ø 15 mm (REF 5155nou), Protection sleeve Ø 15 mm (REF 5138nou), Obturator Ø 15 mm (REF 5152nou)	
+ Ø 12 mm Trocar Set consisting of	4147nou
Gear Unit (REF 5163nou), Handle (REF 5183nou)	
Cutting Tube Ø 12 mm (REF 5154nou), Trocar Sleeve Ø 12 mm (REF 5141nou), Obturator Ø 12 mm (REF 5151nou)	
+ Ø 15 mm Trocar Set consisting of	4148nou
Gear Unit (REF 5163nou), Handle (REF 5183nou)	
Cutting Tube Ø 15 mm (REF 5155nou), Trocar Sleeve Ø 15 mm (REF 5142nou), Obturator Ø 15 mm (REF 5152nou)

Cutting Tube (Blade)

The specially crafted high-tech cutting tube by NOUVAG fulfills all the requirements of laparoscopic hysterectomy and myomectomy procedures. With its high-quality construction and blade refinement, it allows for multiple uses, ensuring optimal performance.

Tissue Positioner

The protective tubes are equipped with an integrated tissue positioner, which prevents the unwanted rotation of tissue during morcellation. This tissue positioner also serves as a guiding element, ensuring precise and safe handling of the tissue.

DRIVE & SEALS

Seal holder

REF 5167nou

Roof seal for all cutting tube diameters
PU 10 pcs.

REF 5166nou

Membrane seal for all instrument diameters
PU 10 pcs.

Membrane screw

REF 5163nou

Gear unit with sealing unit including gaskets.
The motor speed is transmitted to the blade through the gear unit with appropriate reduction.

REF 5136nou
Sealing Unit

REF 5183nou

Ergonomically shaped handle for attachment to the gearbox unit. Provides insulation against the heat emitted by the gearbox and motor.

REF 2090nou

Electronicmotor 21: Brushless electronic motor with a 2.9 m cable length, autoclavable. Provides the necessary torque with smooth and quiet operation.

MYOMA REMOVAL

REF 5193

Myoma drill

Ø 10 mm, Length: 330 mm

GRASPING FORCEPS

REF 5196

Tenaculum forceps

Ø 10 mm

Length: 420 mm

REF 5192

Tenaculum forceps

Ø 13.5 / 15 mm, Length: 420 mm

REF 5194

Tenaculum forceps

Ø 5 mm, Length: 420 mm

REF 5195

Claw forceps, 2 x 3 Teeth

Ø 10 mm, Length: 420 mm

STERILIZATION CONTAINER

REF 4113

Stericase: 465 x 280 x 100 mm,
for sterilization and storage
of sterilizable instruments
and accessories.

REF 4126

Silicone Mat: 450 x 270 mm,
non-slip mat with raised bumps.

Technical Data

TCM 3000 BL Morcellator	REF 3287nou
Operating voltage, switchable	100 V~ / 115 V~ / 230 V~ 50–60 Hz
Power consumption	60 VA
Max. torque	100 Ncm*
Motor coupling	INTRA, ISO 3964
Cable length Motor	2.9 m
Speed range	50–1,000 rpm
Protection classe	Class I
Foot switch IP Code	IPX8
Cable length Foot switch	2.9 m
Dimensions (W x D x H)	120 x 180 x 110 mm
Weight Control unit	1.8 kg

* TCM 3000 BL Morcellator generates a maximum of 80 Ncm
(speed range 200–400 rpm).
